

## Benefits to Clients

**Customer Service:** Our staff is trained to identify the attributes and skills our clients are seeking. This saves time by getting the right candidates referred.

**Testing:** Our testing software has over 600 specific skill assessments.

**Thorough Interviews:** Helps determine attitude, reliability, work ethic, motivation as well as the ability to perform the job well.

**Ongoing Recruitment Program:** We are constantly recruiting candidates in order to have a supply of prescreened candidates when our clients have a need.

**Social Security Verifications:** The E-Verify Program verifies employee eligibility.

**Drug Screen/Background Checks:** This will be done upon client request.

**Reference Checks:** We check references from the two most recent supervisors if available.

## Benefits to Associates

**Health Insurance Program:** Associates are immediately eligible for Health, Dental, Short-Term Disability and Life Insurance. The coverage is affordable and available within the first 30 days of employment.

**Direct Deposit/Debit Cards:** Over 90% of all CHASE employees get paid through Direct Deposit or Directo pay cards.

**Online Registration for Applicants:** This streamlines the application and initial screening process.

**WebCenter:** Allows online 24/7 access to associates' pay history and W-2 information.

## “Let’s Work Together!”

For over 30 years CHASE has hired and placed tens of thousands of people with our clients. Many have become successful full-time employees, while others helped with projects or busy seasons. Our success comes from matching the right people to our clients' needs.

## Company History

CHASE Professionals was founded in Atlanta, GA in 1979 and has grown to a successful Recruiting/Staffing firm with 25 branches. Most of our branches are full-service branches, while several specialize in a particular field, giving our clients the best of both worlds.

## Services that CHASE Provides

**1. Temporary & Contract Assignments:** Candidates can be used as temporary or contract employees for an unlimited amount of time. Companies use temporary associates for projects, busy seasons, to add people with skills that their present staff doesn't have, or to replace employees who are out. Many companies save money by having a smaller full-time staff and bringing in temporary workers as needed.

**2. Temp-to-Hire Program:** This is great if you are hiring someone who is not currently employed full-time. You can try the person out to make sure that the person has both the job skills needed plus the right personality and attitude to fit into your corporate culture.

**3. Contingency Direct Hiring:** This works well when you want us to try to find candidates who are already employed but available for the right opportunity to change. There is no cost to you unless someone we refer for your position is hired. Then the person who is hired goes directly onto your payroll. Our fee would be based on the annual salary for the person.

**4. On-Site Partnership Program:** This program is for the companies who use 50+ temporary employees on a regular basis. CHASE provides an onsite supervisor to manage the employees, handle interviewing and screening, orientations, meetings with supervisors, dealing with any employee issues, and handling payroll.

**5. Payrolling Services:** Clients that want to hire someone but not add them to their own staff payroll can put the person on CHASE's payroll at a discounted rate.
